Dear Mr. Castells,

Your letter dated 6 June 2016, was discussed at the recent meeting of the Nevada County Historical Landmarks Commission. We are not in a position to comment on the technical aspects of your proposal, much of which is in print too fine to read. However, please be aware that your proposed installation is within a historic district that is on the National Register, in large part because it is a remarkably preserved 19th century town. Your proposed installation is also surrounded by approximately 50 structures and sites which have important historical significance, many of which themselves are registered at the national, state and county level. Anything you wish to do should take into account the potential impact on these historic sites.

Yours truly,

Bernard Zimmerman, Chair
