# Nevada City Newsletter

## Nevada City Police Department

At the regularly scheduled City Council meeting on October 27th, Council Members and staff addressed the topic of retaining the Nevada City Police Department or contracting out police services to another agency. Council Members had been provided with research from various sources

to assist them in making such a critical decision. Thank you to those who were able to participate in the online survey and the Town Hall meeting to provide input on this important matter. Those who have not reviewed the staff report and the research results can find the material and meeting via the city

website: <https://nevadacityca.gov/agendalist.aspx?categoryid=9947>

After thoughtful consideration, Council Members voted 5-0 to support and enhance the police department. More to come on this topic, as we move forward.

## Leaving the Dry Season and Entering Fall/Winter Weather

Thank you to all of our residents and businesses for working hard to conserve water this summer. We have survived the dry season and now need to prepare for the next rain storm.

Our public works crew did a great job keeping storm drains clear during the early fall storm, so we did not experience flooding and other rain

storm issues. You can help prepare for the next storm. When you sweep or leaf blow leaves and pine needles off your sidewalk, do not send them into the street. This is a traffic hazard and our street sweeper does not like pine needles. Please put your piles into your yard waste bin.

When the snow comes, the Public Works crew have pri-

ority routes for clearing roads. Those routes can depend on what day of the week it is, how many crew members they have available for snow removal and other factors, so please be patient and drive slow on those snowy days.

Happy Fall!

## Things You Might Want to Know

### Sewer Utility Bills

The City's current sewer rate structure is based on a flat and flow rate. The flow rate is calculated using the January and February water usage. Please be mindful of the water used during these months as the billing will be updated July 1<sup>st</sup> and

remain at this amount for one year.
